REMARKS

Applicants have hereinabove amended the priority paragraph to correct a typographical error in the serial no. of the parent application.

Applicants note that U.S.S.N. 10/443,694 names inventors in common with the subject application and has subject matter in common. In addition, PAIR indicates that U.S.S.N. 10/443,694 was filed on May 21, 2003. Applicants further note that, in contrast, U.S.S.N. 10/433,694 does not name any inventors in common with the subject application nor does it have subject matter in common. In addition, PAIR indicates that U.S.S.N. 10/433,694 was not filed on May 21, 2003. Clearly, the subject application is a continuation-in-part of U.S.S.N. 10/443,694 and not U.S.S.N. 10/433,694.

Applicants respectfully request entry of this Amendment.

If a telephone interview would be of assistance in advancing prosecution of the subject application, applicants' undersigned attorneys invite the Examiner to telephone them at the number provided below.
